## ATHLETICS PAID WELL AT COLUMBIA

Basketball Brought In Greatest Profit for the Past Season.

Athletics at Columbia University paid well last year, despite the absence of football according to the annual financial report of the athletic association, which was made public yesterday. Although only a balance of \$8.85 remained in the treatury after paying all
beligations, the association had in addition a reserve fund of \$2.94.

The total expenditures of the general
organization were \$9.000 28. Only three

\*\*Learn paid their way during the year.

as to the injustice of any ex-ate, and he expressed the opin-

better instincts but also to our material instincts.

"I wish earnestly to urge upon you the importance of the banks in your city and in your Federal Reserve district promptly subscribing the amount allotted to you. New York has already led off with a \$50,000,000 subscription, and I sincerely hope that there may be no doubt whatever about the railing of the remaining \$50,000,000 in the other leading financial cities of the country. I am sure that we may conidently count upon the loyal and patriotic support of the bankers of your city in this emergency."

Northern banks are asked to subscribt \$100,000,000 to the fund, and serial response of the country, showed that the situation was a real and not a psychological effect. The letter in part is as follows:

"As to the question of our having produced a psychological effect, it is unreasonable to suppose that an effect of this kind could be produced by a single letter of one institution unless the conditions their institution unless the conditions their institution unless the conditions are cally existed. Bankers are the hardest people in the world to be affected in their opinions if facts are not present-versal response of the banking community, evidenced by their writing to sentence the produced a psychological effect. The letter in part is as follows:

"As to the question of our having produced a psychological effect, it is unreasonable to suppose that an effect of this kind could be produced by a single letter of one institution unless the conditions are cally existed.
